

Description:

CA6050/CA6051 is a hand-held powerful optical power meter. There are wide range wavelength could be selected, including: 850, 980, 1310, 1490, 1550, 1625nm.

Features:

1. Large LCD convenient read measurement results
2. Offers a variety of connector type selection
- 3 tail auxiliary high brightness LED illuminator convenient construction operation at night
- 4 good stability, guarantee the performance test and repeatability
- 5 the appearance of small size, easy to carry

Specifications:

Type	CA6050	CA6051
Measuring wavelength	850/980/1310/1490/1550/1625nm	
Power measurement range	-40dBm~+30dBm	-60dBm~+5dBm
Measurement accuracy	±5%	
Display unit	uW,mW,dBm,dB	
Battery life	> 60 hours	
Working temperature	-10°C~+60°C	
Joint form	FC/APC,FC/PC,SC/APC, SC/APC	
Detector type	InGaAs	
Power supply	5th battery	
Store Temperature	-25°C~+70°C	
Size	175mmx44mmx26mm	
Weight	113.5g
